Subject: RE: PFAS New Chemicals and SNURS
Attachments: PFC PMN Submissions (FY2006 to present)_121117.pptx

Attached is info on the PFCs that have come through the New Chemicals Program. In addition, there are several hundred existing chemical PFCs that are the subject of SNURs; let me know if you need more details on these.

I asked for updated numbers on Friday but don't have them yet. If you need a number now, I suggest you use the numbers we provided before:

- In fact, from 2006-June 2016, EPA received 273 PFC PMN submissions and entered into consent orders to regulate the chemicals for 108 such submissions.

Tala clarified on Friday that she did not say there were 400 PFAS SNURs; she said they reviewed 400 submissions to see if they had data.

Hi – did you happen to collect the number of PMNs and SNURs that we have issued to PFAS compounds? Heading to the 9am on PFAS's. See you later this morning at the public meeting! Charlotte
